BANNED AGAIN : CAPTAIN MARVEL AND MORE

INTRODUCTION...

Brie Larson: "I don't need a 40-year old White man to tell me what was wrong about A Wrinkle In Time, because it wasn't made for him."

BANNED AGAIN : CAPTAIN MARVEL AND MORE

The previous statement and others like it made by this worthless female activist caused a big shit-storm on the internet. Being a movie buff I decided to get involved--but my idea of getting involved is a bit too acidic for some people's taste, especially some lying-piece-of-shit scumbag(s) on YouTube, (I will explain as best I can)...

This is the second time I've been banned from YouTube. I had two YT accounts. I was able to go back again and did not do more damage until I got wind of Brie Larson's anti-male bullshit. (I guess I didn't learn from my first experience.) Something truly disgusting happened soon before my second account was deleted and all my creative posts suddenly disappeared, somebody added words to my conversations that I did not write--in either in an attempt to make me look hypocritical or simply to make Marvel/Disney product to appear more positive (maybe I wasn't supposed to find their false entry, but I did and I wrote about it. Like Rotten Tomatoes and the Shill Media sell-outs, YouTube was also protecting Captain Marvel. Upon further reflection I am glad my account was deleted. I don't want to belong to a website that will rewrite me and add false opinions in my name that I did not express. Here is the addition and my response to it:

"I did not write, '**I can't wait for Captain Marvel! Shazam is it!**'

[Note: the Shazam name contained a lightning bolt icon]

'Some scumbag on YouTube is impersonating me. Fuck you, scumbag(s). If you cannot find this comment it's because I deleted it. I've no idea how many times the scumbag posted this bullshit.'"

I must have shared this comment on 50 or so different YT channels before I was banned. What follows are many of my comments posted on YT in 2019 sometime before Marvel was to be released in theaters on March 8th. You will be able to tell by my general tone that I would never say something positive about Brie Larson or the film Captain Marvel. Some comments were not rescued so this collection is incomplete. Some items are recreated from memory and may not resemble the original postings. I wish I could have rescued them all, but I must be satisfied that this much was saved and a record is made of a lot of it, and although much was lost--it's the idea that counts. This book is much shorter than my first account of being banned, as the entire process was shortened by the sudden demise of my account. I never got a warning nor a notice of impending termination. I just simply could not log-in anymore...but then that's what scumbags do.

BANNED AGAIN : CAPTAIN MARVEL AND MORE

Regarding STARWARS and MCU and comic book and movie fans being called SEXIST Holocaust Oven Guards...Or, I kick them with humor when they are down...

Take off those SS uniforms and Swastika armbands, you fucking Nazi bastards. Shave off those Charlie Chaplin mustaches and stop filming silent movies.

Deutschland uber alles, uber alles in der welt*.

[*Something about the German Fatherland being great and wonderful.]

The reason why is Brie Larson is bug-fuck crazy is she has a pet monkey*, and as soon as she gets home and walks through the door, it throws shit at her. "You stupid little fucker!" She yells. "I am getting tired of your fucking bullshit. It's not enough I have to deal with white men asking me questions, I have to come home and deal with you! I should sell your ass to medical experiments cause that's all you're good for!" The monkey grins crazily and gives her the [middle] finger and runs off, and she gives chase, 'cause she is marvelous.

[Rumor has it it's not a really a pet monkey at all. Rather it's really a shit-throwing pet seal, which in my opinion is equally just as bad, because no one, not even Brie Larson should have shit thrown at her, no matter how adorable the animal or horrible the person.]

If Brie Larson visits China to promote her movie, I hope they throw shit* at her.

[*Original comment said "rice" I think but I changed it here to something slimier and smellier, because, Brie, it was you that threw the shit that hit the spinning fan.]

Brie Larson thinks she is now a goddess. She is bug-fuck insane. An insect laid eggs in her brain and worms are squirming there now*.

[Eeeeeewww, that explains it.]

Hey Brie, fuck you, [bitch].

So who makes a movie then allows their star to tell people not to go see it? What the fucking fuck?

And those white males were given jobs by white males at news outlets owned by white males for a readership that is mostly white males. And the white women married to those white men are not going to see my shit movie either. And they number in the millions, but I don't care cause my movie wasn't made for them, even though I am white.

BANNED AGAIN : CAPTAIN MARVEL AND MORE

Anybody ever have such a bad case of the runs their butt-holes exploded in their pants after trying to hold it back like forever? That's what waiting for Captain Panties to open is like.

If Brie is to keep working in Hollywood she has to repeat the same commie bullshit they are all spouting. If she says she agrees with trump on anything they will find a replacement actress in a heartbeat. And blame her departure on republicans.

Isn't it wonderful that film-makers can now save their jobs and reputations and careers by blaming their failure on someone else? social justice warrior privilege is great and so damn convenient. Used to be they just went to a safe space and sobbed uncontrollably and kicked their dog or shaved all the hair of their kids heads, or hit the cat with a metal clothes hanger. But now those mommie dearest days are over and its the fans that get hit with clothes hangers.

Marvel knows people have short memories especially when it comes to bullshit so they thought they would get away with saying Captain Panties is the first anything. In a way the tactic works. Classic brainwashing. Trick people into believing they've never ever seen a female hero previously. Its called double-think. Believing in two opposing viewpoints simultaneously. George Orwell's book, 1984, which is a manual for communist brainwashing. They are following the book's advice to the letter. Present the public with a contradiction. Those who buy the lie belong to the liars, hook line and sinker. You cannot save them. Those who refuse to trust the lie will get cages placed around their heads and rats put in those cages. You know, those who are the defective ones, the thought criminals, those who refuse to kiss ass and believe the bullshit. The Winstons of the world. SJWs already practice double-think. They are lost to insanity. Oceana, Oceana! Years ago I overheard three young ladies talking on the street. One said, "But you're lying to yourself." Another said, "I don't care." And I thought, Holy shit. I wanna date that girl who doesn't care if she lies to herself because well never a dull moment, right? The first thing the devil did was lie to himself, and tell himself he is God. And that got him kicked out of heaven by the biggest boot in the universe. If you lie to yourself you have run out of the very last friend you have, all you have left is an enemy, that is yourself. Marvel wants you to lie to yourself, such is their satanic agenda. Lt. Ripley never existed. If you don't think marvel adores Satanism then watch Ghost Rider. It's all there in plain sight. Selling your soul. Demon worship. And so on. Communism is Satanism. Orwell's book is Satanism. Marvel is Satanism. A real

BANNED AGAIN : CAPTAIN MARVEL AND MORE

satanic scumbag will try to make you believe a lie about a lie. A double whammy. Then you will truly be lost.

Everyone is included, no one is excluded, except white men.

To prepare for her role in captain marvel Brie Larson went and lived among severely depressed lepers.

WHAT IS TRUTH?

The only other genders that exist are hermaphrodites, and men with two dicks and women with two vaginas (rumor has it these do exist, I do not speak from experience), because God created them in their mothers' wombs, no one else possibly could.

Read psalm 139:

"For you created my inmost being; you knit me together in my mother's womb. I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well. My frame was not hidden from you when I was made in the secret place, when I was woven together in the depths of the earth. Your eyes saw my unformed body;"

So screw the SJW Psychosis bullshit of mentally ill gender identity politics. If you are [bug-fuck] insane take it to a psychiatrist. If you were born without a sexual organ, or you have an unformed twin fetus* living inside your brain, well that's just fucking sad and unfortunate.

[*Idea taken from Stephen King's The Dark Half (the film).
EEEEWWWW!!!]

CHARLES MANSON IS MY HERO:

(Lyrics By Brie Larson and the Razors*)

Iiiiiieeeee wanna eat your broken glass. Yeah Iieeeee wanna kick her in the ass. But iiiieeeee am one of the token class. So whhhyyeeee are you giving me the sass?

Hate your mom hate your dad, kick your brother's ass. Rob the cops, love them not. Eat your boogers at a truck stop. Faint to floor, when they stoop to help, kill them all. Cause Iiiiiiee am of the rebel underclass!

Yea yea! Holy yeeeeaaaah!

**Charlie, Charlie, Vietnam was hard, but not as hard as auditioning to become one of the Monkees. But you still played guitar, most talented of all. If they had hired you baby, Sharon Tate

BANNED AGAIN : CAPTAIN MARVEL AND MORE

would still be alive! And the Antichrist-Jesus would have been in a TV musical comedy. You're my hero! AAAAHHHHHHHHHH!!!! (But why did you have to be a white man?)

[*Brie was in a band once but this name was made up by a Mexican Llama in a polka-dot bikini.]

[**Mostly spoken word.]

ON THE RUMOR CM WILL DEFEAT THANOS IN AVENGERS: ENDGAME...

Captain Panties is gonna kill Thanos? Bullshit. A giant water-bug killed Josh Brolin in Mimic 1. So a cockroach did it before the Captain even came close. Sorry, a roach beat you to it.

HOW NOT TO GIVE MARVEL YOUR HARD-EARNED MONEY...

You borrow Captain Panties from the local public library. You do not give these assholes one fucking penny. You have group showings where you and others gather to drink beer, smoke pot, snort cocaine, and eat hotdogs. And no one has to pay an extra dime. Because the only way you are going to truly enjoy seeing this movie is high on drugs, completely pissed, blasted out of your fucking skull.

I hope Captain Panties makes only 10 million dollars.

CONCERNING BEING CALLED A RUSSIAN BOT BY THE LEFTIES FOR HAVING AN OPINION THEY DON'T AGREE WITH...

If I am a *toxic [MALE] Russian troll* then why hasn't Putin paid me one fucking cent? Hey SJWs, tell your commie friends in China to tell Putin to send me my checks.

ABOUT ROTTEN TOMATOES DELETING ITS USER RATING SYSTEM...

[AS OF THIS WRITING BRIE'S ACTIVIST BULLSHIT IS REPIORTED TO HAVE COST MARVEL A PROJECTED LOSS OF 100 MILLION DOLLARS. THE ROTTEN TOMATOES SCORE DROPPED TO 26% WE-DON'T-WANT-TO-SEE BEFORE BEING REMOVED FROM THE WEBSITE.]

They removed the score because it would have dropped down to 1%.

How dare you people be free to make your own decisions. You must worship us communists, since we know better than you what thoughts should and should not be in your minds.

Brie Larson calls the Rotten Tomatoes home office and demands they

BANNED AGAIN : CAPTAIN MARVEL AND MORE

put the scoring system back on their website, because honesty and integrity. And aardvarks just flew out of goldfish's ass.

CAPTAIN MARVEL STORIES...

Captain Marvel and Goose are standing on the outskirts of a burning city. "That was some ordeal," She says. Goose nods and says, "Yeah, that's a lot of carnage. You really showed them who's boss. That's a lot of dead white men."

Captain Marvel meets Alita Battle Angel in a dark alley. Marvel says, "I can kick your ass." Alita shoves her foot up Marvel's asshole and says, "Now you can stick a cellphone up your ass and call your cat anytime."

Upcoming CM comic books...

1) captain Panties and the evil white veterinarian. 2) captain Panties and terribly sexist white Republicans. 3) captain Panties and the dumb blonde red MAGA hat convention. 4) Captain Panties and the Hollywood robot lesbians. 5) captain Panties and the candy nuclear power station (Charlie and the chocolate-factory cross-over)

Brie Larson is standing against a wall. Ten white men with rifles are aiming their weapons at her. "By order of the highest court in the land, for inciting hatred and bigotry--" "--before you shoot me I just want to say I was just kidding the whole time. I never meant anything I ever said. Have mercy on me." "Uh, yeah, fire!" She extends her hands and blasts come out obliterating her enemies! "I am marvelous," she exclaims. Then she turns her anger on the prison and destroys every building! Then she turns her anger on the whole town and kills every resident! Then she turns her anger on the whole state, then the whole country, then the whole world! Finally, she thinks she's the last person left alive and sits down to be quiet and proud of herself. A little white girl walks out of the smoke and burning ashes and says, "You a stupid fucking bitch."

Brie Larson's ass will be the stage for a tiny flat earth in the upcoming Men in Black 5. Her bunghole will make a cameo appearance as the newly discovered space phenomenon called The White Hole, which Disney plans a spinoff of. They're saying its just a remake of The Black Hole but with an all female cast. The killer robot, designed by Carlo Rambaldi (of E.T. fame,) will be a red clitoris with vicious

pincers programmed by women to murder men and cut off their penises and letting them bleed to death. So essentially in the future, women are still the same, and nothing really has changed. So much for scientific progress. To be produced by the much-loved-by-starwars-fans Kathleen Kennedy. To be directed by Rian Alien-Tits Johnson.

TASTELESS JOKES...

If Brie Larson has a black baby, we'll have to call it Captain Marble.

I knew a writer who wrote a horror story about a woman that injected an infectious needle into a guy's penis while he was fucking her twat! Ouch! I think he was writing about Brie Larson.

Brie Larson goes into her movie trailer and sitting in the tiny kitchenette area is a white man and he is masturbating...*

*I could finish it but I won't.

Brie Larson goes to a screening of Captain Panties to witness audience reaction and there are over 500 white men filling the theater and they are all masturbating...

[*I could finish this too but I won't.]

About comments that Alita Battle Angel is too sexy...

Hey some guys enjoy the idea of fucking a robot. It's anti-cyborg sexism is what this is. So Lando Calrissian can fuck an SJW robot but the rest of us cannot. Well, suck my cyborg cock. Hell, I wish, 'cause then I could pre-order the size. The future will have the most amazing mail order cyborg custom-design cocks. Many will make exciting beeping noises and have strobe lights or colorful flashing emergency lights, and for the women come, "ribbed for her pleasure." Many will come with adjustable vibration settings but it is the earthquake setting that will cause many deaths and class action lawsuits. Move over fatty Arbuckle.

Captain Marvel meets Alita Battle Angel in a dark alley. Marvel says, "I'm gonna kick your ass." Alita shoves her foot up Marvel's asshole and says, "Now you can stick a cellphone up your ass and call your cat anytime."

How to fix Marvel [Studios]: make all staff at Disney, Marvel and Lucas-film get sex changes so they will all be the same sex and true diversity will have been achieved. Remove Brie Larson's vagina and

BANNED AGAIN : CAPTAIN MARVEL AND MORE

implant it in a man who wants to have children. Brie Larson will be lauded and praised as a true social justice activist.

THANOS: But you said stick it where the sun don't shine.

MARVEL: Thanos, take the infinity gauntlet out of my ass!

How to fix Avengers: Endgame. What you do is cut as many captain panties scenes out of Endgame as you possibly can without rendering the story incoherent. I would be better if she were cut out entirely and all shots replaced by a hamster on an exercise wheel but this is asking too much. Or you can simply replace her [with] clips like a chimpanzee sticking his finger up his own butt then smelling it and fainting which would be far more interesting than watching brie Larson.

NEW LIFE FOR OLD HUMOR...

FROM PREVIOUS BOOK -- REWRITTEN (AND SHORTENED) to reflect the shills going after MARVEL "TROLLS":

An SJW dies and goes to hell and says, "Noo! "I don't belong here!" The devil says, "You broke Starbucks windows! They are just mirrors without silver on one side! Seven years for every glass you broke." "You mean I get to leave after serving my time?" "Yes. Now you must go live in your new home. A glass house filled with trump-supporters."

A VARIATION ON AN OLD THEME, (IDEAS USUALLY RESERVED FOR THE KATHLEEN KENNEDY'S SJW STARWARS MOVEMENT)...

Somebody forgot to tell brie Larson that *God created all other creatures before he created woman. So God brought a monkey and a rat to Adam and asked him which one he preferred as companions. Girl you were an afterthought and not really all that important.

*Book of Genesis, creation story. (Another reason for feminists to hate men.)

THE FLAT-ASS COLLECTION...

Brie Larson's ass will be the stage for a tiny flat earth in the upcoming Men in Black 5. Her bunghole will make a cameo appearance as the newly discovered space phenomenon called The White Hole, which

BANNED AGAIN : CAPTAIN MARVEL AND MORE

Disney plans a spinoff of. They're saying its just a remake of The Black Hole but with an all female cast. The killer robot, designed by Carlo Rambaldi (of E.T. fame,) will be a red clitoris with vicious pincers programmed by women to murder men and cut off their penises and letting them bleed to death. So essentially in the future, women are still the same, and nothing really has changed. So much for scientific progress. To be produced by the much-loved-by-starwars fans Kathleen Kennedy. To be directed by Rian *Alien-Tits Johnson.

[*In The Last Jedi the character of Luke Skywalker (in self-imposed exile on an island) drank from the breasts of an alien creature for sustenance. They could have given him a girlfriend, the milk from her would have been more acceptable.]

Brie Larson is in high school talking with her friends. "It wasn't until I was 13 that I realized my body had obtained that sweet hourglass shape guys love so much." And her boyfriend says, "What hourglass shape?"

Brie Larson was chosen to be in The Room because all she had to do was sit and her flat ass was perfect for the role.

Brie Larson stood up and turned around. She pulled down her pants and said, "Worship my ass!" The audience laughed and said, "What ass?"

One of brie's eyes is bigger than the other, one of Brie's tits is larger than the other, and one of Brie's butt cheeks is flatter than the other.

Trump has no other choice but to grab brie Larson by the pussy, He tried grabbing her ass and missed.

Brie Larson participated in the U.S. Olympics. Her specialty was crossbow and shoot the white man.

Brie was chosen to act in the room because all she had to do was sit and she had the perfect ass for it.

Brie's nickname in school was Big Butt, it wasn't true but people would look anyway and suddenly burst out laughing, which was the whole point.

"Why is your trainer always grinning when he helps you do pushups?" "I guess he's looking at my ass." "Yeah, yeah, I can see that. I understand.

BANNED AGAIN : CAPTAIN MARVEL AND MORE

A rapist would take one look at Brie's ass and think, "fucking hell, no meat there, not interested."

Brie Larson walks into a clothes store and asks if they have any ass-pads. "Not for an ass that flat." "What do you mean flat?" She is handed a mirror. "Oh, holy shit, why didn't anybody tell me my ass is this flat?" "Any guy that wants to get in a girl's pants will tell any kind of lie." "I only date white guys. Are you saying they all lied to me?" "Yes." "Screw all white men!"

Try kissing Brie Larson's ass and you will miss and bump into a computer programmer who will spill his coffee into the *T-1000 mainframe causing it to become intelligent and decide mankind's fate in the blink of an eye and launch nuclear missiles initiating World War III.

[*Inspired by Terminator films.]

Try kissing Brie Larson's ass and you will miss and fall onto a playground seesaw which will toss a child into a wood chipper.

Try kissing Brie Larson's ass and you will miss and knock over a ladder which will knock over a bodyguard who will think he is being attacked and pull out a gun and shoot without thinking killing a child whose father will become so enraged he goes into a truck and drives over twenty people standing in front of a movie theater. He backs the truck up and runs over five little old ladies. Cops open fire killing the crazed father. One bullet ricochets off truck metal and kills an Antifa SJW who is revenged by his friends as they attack anyone they can see and start breaking Starbucks windows and burning limousines and punching anyone wearing red. A riot ensues. After it is over Maxine waters comes in and says to the cameras we should blame it all on trump which then starts a race war. Maxine hides in her million dollar house as blacks kill whites everywhere all across the United States. To put an end to the chaos the American military drops several small nuclear bombs on several American cities accidentally releasing a virus which starts a zombie apocalypse. The walking dead run through the streets biting anyone they see and animals are infected too. Finally an infected rat tries to bite brie Larson on the ass but misses and falls into a large pool of green toxic nuclear waste. What emerges is a monstrous abomination that can duplicate itself upon eating McDonald's chicken nuggets and many of these creatures rampage across the cities killing many that are still alive. One monster sees Brie Larson's ass and refuses to take a bite

as there is no apparent substance there, sparing her from death. And she flies by chopper to a deserted island where many people feed her grapes, and comfort her with hand fans, and serve her margaritas. Then one day one of her servants tries to kiss her ass...

Try kissing Brie Larson's ass and you will miss and poke your head into a photo-booth and the couple inside will punch you in the face and you will fly backwards and overturn a black lives matter table and they will stomp you to death. And your soul will enter the afterlife and you will learn that the only god is the Hindi god that looks like a elephant, and you will travel through the trunk of eternity towards a white light. Once you arrive you will enter nirvana which is a zoo and you will be thrown in a cage and fed peanuts.

Try kissing Brie Larson's ass and you will miss and slide down a banister made of a single razor blade and fall into a pool of alcohol.

Try kissing Brie Larson's ass and you will miss and trip and bump into a hotdog vender and the cart will become loose and roll down the street toward an intersection and cause a ten car pile up and one of the cars will crash into a gas station causing an explosion that will kill numerous pedestrians. And one of those pedestrians was a disease research scientist who would have gone on to cure cancer had she gone on living and another man would have won the Nobel peace prize for feeding desperately starving hungry children in third world countries.

Try kissing Brie Larson's ass and you will miss and you face will go right into a barber's scissors and one of your eyeballs will pop like an egg crushed in a man's hand.

PROOF I WAN'T TROLLING ALL THE TIME...

"If you want better than Disney star wars material read the Han Solo A.C. Crispin trilogy and Lando Calrissian L. Neil Smith trilogy (the adventures of). Good books. You should be able to find affordable omnibus editions easily on eBay or Amazon. You won't get all the cover-art but you can find the art in Google images. I read them 10-15 years ago and I still remember them. I did read other star wars books that were flat and lame and empty (like the Thrawn trilogy--worthless crap), but these Solo/Lando books had great substance and originality.

THE MARVEL SCREENINGS...

Captain Panties was screened at a children's [cancer] center and the kids ran into the kitchen, grabbed knives, and started stabbing each other.

[A LOT OF THIS TYPE OF CRAZY MATERIAL WAS LOST]

STAR WARS RELATED...

JJ [Abrams] just pulled a brie Larson. Said he doesn't care what fans think. Well, he can go fuck a dog.

JJ, you don't care what we think? Whatever happened to market studies? Go fuck yourself.

Episode 9 will suck ass. I've been trying to warn you guys for a while now. Assholes are making it. I can understand that there are simply too many fan opinions and you cannot please everybody, but you can do surveys with several hundred people and see what's going on, but they are too fucking uncaring and too fucking lazy and too fucking stupid. You determine who buys the most tickets and you work from there. How difficult can that be? If you don't care about making money you're in the wrong business. Get the fuck out of motion pictures you fucking moron.

That motherfucker, there are millions of fans who are willing to tell that fucking monkey why they would buy a movie ticket to see his movie and the moron would rather sit in a corner and jerk off. Nobody should hire this piece of dog-shit to make their movie, he's not worth the shit that comes out of a rat's asshole.

I directed Star Trek: a monkey's dick.

And LOST sucked ass too. Holy fucking bullshit.

Kathleen Kennedy walks into an E.T. convention. She is kidnapped and taken to a UFO and brought before alien leadership. "You got it all wrong, aliens don't care about plants. We do not collect plants. And we definitely do not resurrect dead plants." "I didn't write the story, Steven Spielberg did." "We want you to make a sequel and fix the errors." "Okay, I'm taking mental notes. What are you guys interested in?" "Anal probes." "I can do that. I will anal probe audiences up the wazoo." "You already did that with The Last Jedi.

The force is pussy. There are only two things in this world that smell like fish and fish is one of them. Don't let anything that smells like fish rule over us.

LEIA SLAPS LUKE IN A STAR WARS CARTOON...

Mark Hamill would not entirely suck Disney's ass and said a few negative things about the final trilogy, so they slapped him in an animated cartoon. [It's] Obvious.

Q: "But why would Leia hit Luke?"

A: "I don't give a fuck, find a reason, you're a fucking writer, we pay you to write bullshit, just do it!"

NOTES TO STAR WARS GIRL...JUST FOR FUN...

Hey, Star wars girl, I will meet you at the Mos Eisley Cantina*. I will buy you a glass of blue milk. See you there. Sincerely yours, ThatAlienGuy.*

[*Location in Episode 4: A New Hope]

[*I actually said more than just this but this is all I can remember.]

Star wars girl, I've been going to the Mos Eisley Cantina and expecting you to walk through the door at any minute, but you never do. You have no idea how many times I have ordered blue milk. I am so familiar with the band's play-list I am tempted to buy a light-saber and slaughter those little gray aliens. I even hallucinated and thought some of the furry creatures in there were humping each other, on second thought maybe it really did happen. At any rate...still waiting. Sincerely yours, ThatAlienGuy.

Hey, Star wars Girl, I've been driving around Mos Eisley in my sand-speeder, aimlessly, trying to figure out why you won't show up at the Cantina. I've also been taking shots at a few creatures here and there and the storm troopers are starting to look a bit anxious. I have not exactly been a model citizen and I have started a few fist-fights. Mos Eisley has ceased to be peaceful and even the bounty hunters are looking at me like they will kill me for free, No payment needed. What can I do? I am frustrated but I do not blame you. You don't know me from from a ton-ton. I plan on leaving Tatooine and going anywhere but here. Maybe I'll join the empire. Not ideal but its steady pay. Maybe I'll meet someone nice and fall in love and get married? Maybe we'll have a kid that has Jedi powers? Then you will feel bad for leaving me high and dry. Well good then. Feel bad. You deserve to feel awful. And you're not the first girl to break my heart. In fact go stand in line with the others.

[Sincerely yours, ThatAlienGuy.]

The iCraig Windows 10 tablet: The screen on this piece of shit can be easily scratched by the keyboard which will stop working within two-three months because the ports and cables are so cheaply designed they will fail in under a year. It's easy to transfer files to and from an android cellphone but try transferring files to a desktop via Blue-tooth and you might as well commit suicide. The storage capacity is so small you can install a few browsers and image programs and system utilities but that's all, you will have very little space for say downloaded YouTube videos. You have to play the backup then delete to-from USB flash drive game via the cable provided, but only if the cable works because after a while it becomes sort of useless, sometimes it works sometimes not. The magnet on the leather flap that closes the tablet will slip and slide. After a while you won't even know where it is, but don't worry the case is such shit the snap will get worn and torn and eventually break off anyway. The keyboard is not blue-tooth, and it will fail but don't worry there is an onscreen virtual keyboard, with keys so small don't use your fingers, use a mouse to type using the cheap USB cable provided, if it's working. It gets on the web just fine if you can connect to WiFi at a Starbucks or Burger-Fi. Try restarting if the unit cannot locate the Wi-Fi signal. Restart three or four times if necessary. Then shoot yourself in the head. I hear heaven is a nice place.

[By the way, if the tablet refuses to turn on, try holding down the power button and the +volume simultaneously.]

Muslim vow to hurt...

[Stage 1: the intent of planning to invade your home and take you and your family hostage.] Stage 2 is the breaking and the entering, kidnap of and the torturing of you, and the eating of all of the felafel in your fridge. I would cook it myself from any pea product that are there. For White sauce I will use mayonnaise and the white powder -- the bleach flower Americans love so much. Very tasty but not all too the healthy. But never mind that. It is also the putting of matches between of the toes. It is not fun. I tell you with truth. Ouchy ouchy. Stage 3 is the calling down of Allah's wrath and the ripping off of the roof of your house. The tornadoes that will consume and swallow you will carry you great distance. You think express train is fast, believe when you suddenly find yourself at Mexican border surrounded by refugees with drugs in backpacks. You will not have passport and will not convince patrol of border you are an American--not with shredded clothes and all bruised and such. Holy Wrath not fun. Border patrol even less fun. Believe and Trust. There is a stage 4 but such is too horrible even for me to mention. You do not want to know. Trust and believe. It is stuff of nightmares and the terrors of earth wind and fires. Such is life with big dose of Stephen king horror. You have heard of those who disappear without trace of finding. Those are them who have experience of the stage 4. They never see good life never more. Never. Good gracious. Allah have mercy but not me. Stage 5. Never-mind it. You hear it and you drop dead on spot from alone the hearing. Stage 6. You are dead one like camel with bullet in head. Never mind the anything that came before because [the] past is irrelevant.

Cousin of Shakespeare, Volume II, the Lost Sayings

[All apologies if any material here is repeated.]

You have gone too far this time! What you did was evil and insulting! I will no longer defend you! I am no longer your friend! What is wrong with you? I never met you! I never knew you! I never sat down and ate with you! I want you out of my life! You do not put a wedding dress on a pig and tie it to the fence outside a protestant minister's home!

The foul killer rented a room above the tavern. It was there he would bring his victims. After filling the women with drink they would agree to go upstairs with him. Once there he cut their throats. Rumor has it he drank their blood. The foul beast. At last he is caught and in prison. Yet the world is not safe. Rumor also has it one of the whores is pregnant. It does not matter if the child is his or not. He believes it is. He will try to escape from prison and claim what he thinks is his. As for the whore she had better a new line of work. I hope it is not Beatrice, I would sorely miss her tender attentions.

In the end death is all we have to look forward to. Call me a pessimist if you like. Call me negative. Call me anything you like. Just don't call me black. I hate that color.

So, who cares if that man is dead? He was a miserable scoundrel. His wife will not mourn. He stole all her money. His brother will not weep. He was stabbed in the back over a business deal. Since he lied to most of those in his church they will never say a prayer for his soul. And even if they did it will only be two words, "Thank heaven."

*As a child I fell in a well and I was terrified. I was in that hole for many hours thinking I would die and no one would save me. I cried

out, help, help! Finally a man appeared above me and he lowered a rope. As he was lifting me up he said, "Young man, I want you to do me a favor. Or I will drop you back into this hole." "I said, "Anything, sir." he said, "I want you to rob something of great value and bring it to me." I agreed and once out I set off to find something to steal that was of great price. But what on earth could it be? I remembered that the old priest had said a gold goblet he owned might be worth a fortune and that it might even be the very chalice Christ drank from at the last supper. The Holy Grail. I mentioned this to the man who pulled me out. "Balderdash," he said. "Most likely the cup the old man drinks wine from and he has fantasized too much and believed his own malarkey. But that will do anyway, I know a superstitious idiot who would pay a small fortune for a phoney trinket like that. Cow manure also sells."

[*Unnecessary opening idea removed.]

It was in the morning that the angel appeared. I was lying on the porch of my house enjoying the smell of the morning see when a man with great unfolding wings appeared. "Winston," he said, "thus saith I, go into town and give all your money to the poor. So I did as the vision commanded me. And guess what? Now I am the poorest man in town.

The man speaks nonsense. He talks of the color of his grin, that dogs sing to him, and mermaids want to marry him. He is either insane or trying to gain my sympathy and not pay back what he owes me. Is it working? I would say yes. I think less of my money and more of finding him a good sanitarium. If he escapes from there I will know he has tricked me. He thinks he can live free but I would find him and cut off his manliness.

I was hungry but there was no bread. I said to my wife, I will kill the pig. And she said, "No. Stay away from my pig." "The goat then." "You touch my goat and you will be the one to die." "All right. I slaughter the horse. It is my horse. The horse is mine." "Fine but you will have to purchase a new horse. And I will not sell my goat and pig." So our use I go and take a pitchfork from the barn. I go to my horse. "I am sorry my old friend but we are starving," I say to the old man. "Besides you are old. Then I remember that I too am old and my reasoning makes no sense. So I fell on my own pitchfork. And that is, dear Saint Peter, how I came to be here.

What are you talking about? What do you mean? Are you insane? Have you gone mad? Are you possessed? My dear wife, you are making me very uncomfortable, stop rising from the floor and flying in the air like

that?

Oh my word. I never knew he was of the type. This explains why he went to the costume ball dressed as a woman.

The man is extremely stupid. His dog is smarter than he is. The only thing they have in common is they both eat from the garbage.

He does not speak English. He is from another country. How do I talk to him? Even if I could I'd rather not be the one to tell him his father is dead. Some foreigners are hot-headed and when angered will kill the messenger. I want to keep my family jewels. I need them. So does my wife.

If ye be a lender make certain you tell the borrower you have less Mammon than ye actually have. If ye be a borrower make certain whom ye borrow from is very rich that ye may borrow more than once. If the borrower cannot return payment then kill his wife. If it is thee thyself that cannot return What ye borrowed then sorely beg for mercy and promise the moon and the sun.

It is not enough to be moral. Moral people come a dime a dozen. What I seek is a scoundrel that will rob his own grandmother. It is he that will get the job done. So fetch me that man's child. And if the child bites, being the true offspring of his father who is a snake, then the cure for such poison is sweet candy. That will calm the little bastard down. I speak from experience. My children bite all the time.

There are dogs on the property that will tear you to pieces. So when gaining entrance to rob the owner of his possessions bring tasty meat for those monsters.

They say there is the foul stench of a hellish spirit that follows the man. It is like the stench of a rotting corpse. He sold his soul to the devil and in return women stay away from him. Don't mention this again.

It is bad luck to say a woman's name in church. I know I am the only one among us who believes this is a jinx. But do you really want to end up getting married?

He was hiding like a common criminal, a thief, a murderer, under the marriage bed, and his bride was begging him to come out and face her. Methinks all their days together will be like this.

BANNED AGAIN : CAPTAIN MARVEL AND MORE

Do not tell me this is no laughing matter. I think it is very funny. Who goes to a costume party and takes off their mask and makes people scream in shock but the ugliest baboon at the zoo?

It is not my fault so stop blaming me for something I did not do. If I had been there I would have put a stop to it. But I cannot be everywhere at all times. I am not God. Why is it my responsibility to prevent wives from stabbing their unfaithful husbands?

I do not care. Bring this nonsense to me no more. My dog has a mind of his own. I don't tell him what to do with his day. The next time he defecates on your doorstep throw a bucket of bath water on him. Some fellow was following me today. Someone has been hired to spy on me. Thank heavens he is not very good at hiding. I would never have known my wife suspects I am committing adultery.

A priest has committed suicide in a brothel. Quickly notify the church. I don't care if they believe he is going to hell for a million reasons. Summon them anyway.

The woman is crazy. She is insane. She is stupid. She is unfathomable. She is cunning. She is a thieving wench. One thing she is not is forgettable. Her arse is as big as a mountain.

If I were behaving as he is, it would drive me mad. But the man is too stupid to go insane.

I refuse to marry her. Why? Because she wants to marry me. If you say this sounds illogical, then you haven't met the woman.

If my tavern burns down inexplicably, I will lose everything and there is no way to get it all back, and it will all be your fault. I truly hate that you are in league with the devil. Brother-in-law or not I will "fire" you--there it is, I am so clever--I have coined a new phrase.

She found another man. He is a large, ugly brute but he is rich. I don't think it's his money she wants though, I think she wants a body guard.

My name is William Scamm and although I may not look like much I predict I will be [an] inspiration to future history. Yet here is my dilemma: I have recently buried a great treasure, a trunk full of diamonds, and I will tell you where I have hidden it if you give me

ten pounds so I can travel to my dying mother's bedside.

Go down the street and turn left, no to the right. Walk to the old church, no to the Dead Leopard tavern, then cross the street to the other side. There you will find the bookstore. Yes my directions are true. I may be a drunk but I am not a liar.

All right, I made a mistake. I admit it. It was the worst decision of my life. And it has affected many and done much harm. It has caused many to weep and wail and some to even commit suicide. What else can I say but I regret marrying you? I'm sorry. Really sorry.

Yes, it's a fine house but someone was murdered in it. So how can you be asking for so much? Houses have memories and sometimes the spirits that inspired its crimes haunt the very location. I don't care if it was a circus clown that was killed there, that does not make it better or funny.

He insisted I follow him to the tavern. Once inside he said I should wait. I waited like an idiot. I had no idea what I was about to witness. After five minutes or so a man entered and they began kissing each other. My stomach flipped over and I became nauseous. This is what I paid money to see? I was robbed.

Follow that road through the woods if you dare. But do not be surprised if you are taken upon by evil bandits. Yet even worse women seeking equality.

It's called a ferret, the latest thing in regards to pets. It has almost the same entertainment value as a monkey. The biggest difference is it will not throw shit at you.

If I were behaving as he is, it would drive me mad. But the man is too stupid to go insane. I rescue to marry her. Why? Because she wants to marry me. If you say this sounds illogical, then you haven't met the woman.

In the dark of night, in the most nightmarish of hours, he jumped out from behind the bushes. "Bugga-yugga-nugga-kuggah!!!!" His wife put

her hand to her heart and dropped dead on the spot! But he was fine with it. He cared not. That was after all the whole intention.

And night was when the killer did his bloodiest work. He sawed his victims into pieces and mailed each part to various government officials all over the entire kingdom. When asked why he did it he said he got the idea from some angry father in the good book. Keep that filthy man far from your animals. I think he is of the mind to get married.

Is there something you forgot to tell me? Is there some information I should know? Have you lost your mind? Has your common sense run away? Where in bloody hell is my cat?

I tried to tell him it wasn't going to work. Bleeding yourself by cutting your veins to cure the gout is not the solution.

Tell him the man who robbed his house drinks at the *Wolf's End Tavern, and is there right now boasting of his stolen treasure. Tell him to bring a pistol, the brute is seven feet tall and weighs 300 pounds.

[*Original said, "Wolve's End.]

It's too late. Too late. The horse has been sold to another. If you are interested I do have a large pig for sale. Not much of a ride but tasty on Christmas.

King Arthur is off to war to battle the enemy. The queen will stay home and battle centipedes.

It is darkest before dawn and it is the brightest of lights that shines out his arse*, or so he thinks.

(*A Cousin inspired by Brie Larson.)

Take for example that man and horse coming at us with sword held aloft. Oh good god warn the king!

I want to be an actor but I hate wearing women's dresses.

It is not that I should do or die but that my horse should wonder why. He is very intelligent.

Hark. Who goes there? What do you mean it's the Queen's lover? Do you want to die by the executioner's hand? What do you mean you ARE the executioner?

You will not be able to gain access to his property. Every animal on his farm is a vicious murderous beast. Even his chickens are trained assassins.

To church tomorrow. I marry in the morning. Why do I feel as if I were at death's door? The man went sailing around the world this very morning. He said he would rather fight a whale than fight his wife. Far more fun.

He helped the old woman cross the street. He bought her bread to eat. He carried her up a flight of stairs when she said she had no strength to walk. Then he raped, robbed and killed her. At this very minute he sits in jail saying he is innocent. A case of mistaken identity. Someone that looks like him committed the crime. Have you seen this ugly fellow. There is no way two of his unbearable likeness can be walking this earth!

He lied to his family, he lied to his neighbors, he lied to the law, and lied to the prison warden. But it was when he lied to his crazy dog that he lost his testicles.

The local brothel has a new policy. All sailors, first time is free. They have created the new business model of the future. They are calling it the sale. If it weren't for the men who drift around the world we would never know it is round. And if it weren't for the whores on Barnaby Street we would never know their stories.

That whore robbed me while I was drunk, she is also a thief. She threatened to tell my wife I frequent the brothel so she is also an extortionist. She was also once in the circus which makes her a flying trapeze artist. I would have assumed she shoveled elephant dung but that is too good a job for her.

He fell in love with that abominable whore and followed her everywhere she went. She caught on and hired a body guard who also fell in love. Finally she decided to bathe in excrement to keep them at bay. And so a rat fell in love with her.
